

FRUNCO RUIZ

FULL-STACK DEVELOPER

Los Angeles, California, USA | [Email] | [Phone] | [Portfolio] | [GitHub] | [LinkedIn]

PROFILE

Full-Stack Developer with a strong interest in modern web technologies, AI-assisted development, interactive user interfaces, and database-driven applications. Enjoys building applications from the frontend through the backend, including UI development, APIs, authentication, database architecture, and deployment-oriented tooling.

CORE TECHNOLOGIES

React • Next.js • TypeScript • JavaScript • Tailwind CSS • Node.js • PostgreSQL • Prisma • Zustand • Framer Motion • REST APIs • NextAuth / Authentication • Docker • Git / GitHub • AI-assisted development • AI chatbot integration

PROFESSIONAL & TECHNICAL EXPERIENCE

Full-Stack Web Development

Develop and experiment with modern full-stack web applications using React and Next.js on the frontend and Node.js/PostgreSQL-based technologies on the backend.

- Interface design and implementation
- Reusable React components and responsive layouts
- Client and server-side functionality
- REST API development and authentication
- Database modeling, Prisma integration, migrations, and seeding
- CRUD operations and testing
- Docker-based development and Git-based source control

AI-Assisted Development

Explore AI tools as part of the software development workflow, including AI coding assistants, conversational interfaces, AI chatbots, and connecting AI systems with application data.

SELECTED PROJECT

AI-Powered Developer Portfolio

A modern personal portfolio combining professional presentation with interactive technology.

Technology: Next.js, React, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Prisma, Zustand, Framer Motion

- Personal profile, skills, projects, and experience management
- Administrative dashboard with authentication and CRUD operations
- PostgreSQL database with Prisma ORM
- AI-powered portfolio chatbot
- Responsive design, interactive animations, and dark/light interface support

- Project imagery and external project links

DEVELOPMENT PHILOSOPHY

I enjoy learning by building, experimenting with new technologies, and continuously improving existing work. My approach emphasizes clean architecture, practical solutions, attractive interfaces, maintainable code, and useful user experiences.

EDUCATION

[Degree / Program] — [School / University], [Year]

CERTIFICATIONS & TRAINING

[Add certifications, courses, or training]
